

Kim's thoughts

I am a member of the Epsilon Chapter of Delta Kappa Gamma. I serve as the state legislative chair in Indiana. I look forward to local and state meetings due to the friendships that I have made as a member of DKG. I am always impressed with the knowledge, care, and dedication of DKG members. I am constantly thankful that my DKG sisters are in classrooms teaching the children of Indiana. My 2nd grade teacher, Ms. Mariette Barga, is also a member of the Epsilon Chapter of DKG. She has been a positive role model and a friend to me for most of my life. I have such joy knowing that other DKG members have similar relationships.

I was awarded a scholarship by DKG to help me with the expenses of getting a PhD. I would never have been able to accomplish this dream without those funds and the support of my DKG sisters. I am always so excited to award the grant-in-aid to a young woman who has decided to teach in a public school. This is such a wonderful way to thank the young people who have decided to dedicate their lives to the education of children in Indiana public schools.

I cannot say enough about the friendships, achievements, and benefits that any woman can receive by deciding to join DKG. The experiences and opportunities are endless!

Women teachers to the calling...
